

Bear Butte Cemetery (Monument Setting Policy)

Effective Date: March 12, 2008

MONUMENT PERMIT:

A permit shall be required before placement, repair, etc. of monuments/markers in Bear Butte Cemetery. There is no fee for the monument permit, however; failure to obtain a monument permit could result in a penalty fee of \$50.00 to the Monument Company or person setting the monument. Lots shall be located and marked by cemetery staff.

INSTALLATION OF MONUMENTS ON UNLEVEL TERRAIN:

The top of a foundation shall have no less than two (2) inches extending up above the highest point of natural ground level. Foundations extending more than (2) inches shall be approved through the monument permit process. The base of a foundation shall extend into the ground no less than two (2) inches at the lowest point of natural ground level. All four (4) sides of the foundation shall be of the same thickness.

The concrete foundation shall be constructed with sufficient strength to be moved and/or support heavy equipment working on or around it. The exposed concrete shall have a professional finish without any blemishes or defects. The foundations shall be installed level in all directions. The installer shall be responsible for determining the natural slope of the lot or lots and monuments shall be installed accordingly.
